

Weird Machine

DROELOE

I'm a silver screen
I'm a weird machine
Don't you worry 'bout me
Back in nowhere town
I was not allowed
To be what I wanna be

So winter to spring
I opened my wings
I learned to surf the breeze
Took a while but now I'm free
Give me gasoline
I'm a weird machine
Turning gears into a dream

We got that smooth motor
Strong shoulders, ooh
You better come closer
We'll knock shit over, ooh

They can try to shut us down
But we will turn that switch back on
We're not here to fuck around
The future's our phenomenon

They can try to shut us down
Turn that switch back on
Were not here to fuck around
Our phenomenon

I'm a silver screen
I'm a weird machine
Don't you worry 'bout me, aah
Buzzing energy
Shaky circuitry
Still it's working for me

We got that smooth motor
Strong shoulders, ooh
You better come closer
We'll knock shit over, ooh

They can try to shut us down
But we will turn that switch back on
We're not here to fuck around
The future's our phenomenon

They can try to shut us down
Turn that switch back on
Were not here to fuck around
Our phenomenon
