

## Out on the Town

Dropkick Murphys

Me and the gang, we were out on the town in my uninsured '88  
It's time to get Maggie down at the bar  
She said "Don't you punks dare be late!"

It was Saturday night on Hilltop Street  
And everybody's dressed to spill  
They were havin' a time for Mary O's boy Barry  
Who had recently been jailed

In the back on the bar, they were sure havin' fun  
Everybody made some room  
She got out of the chair, threw her fists in the air  
And the whole place started to move

So get up, get up and get with the music  
Everybody out of your seat  
So get up, get up and get with the music  
Maggie's got a brand new beat

So get up, get up and get with the music  
Everybody out of your seat  
So get up, get up and get with the music  
Maggie's got a brand new beat

So get up, get up and get with the music  
Everybody out of your seat  
So get up, get up and get with the music  
Maggie's got a brand new beat
