

# Streetlights

Dropkick Murphys

The streetlights are rising up  
It's time we're headed home  
Long before the days  
When I'd stay out late and roam  
But I wanna stay at your house tonight  
I don't ever wanna go home  
That's where the nightmares happen  
And I feel so all alone

So say your prayers and make your peace  
It's time to buckle up  
Will you share with me some courage?  
Will you share with me some love?

Now shave your face all nice and clean  
And fix your tie just right  
No church, no bar, and no museum  
Will ever make this right  
As we kneel before the statue  
Virgin Mary, lift me up  
We'll say your name ten times  
But it just won't be enough  
It's never enough  
It's never enough  
We'll say your name ten times  
But it just won't be enough  
It's never enough  
It's never enough

A phone drops and a face falls  
A heart breaks and time stalls  
A grandma wraps her arms around a little boy

So say your prayers and make your peace  
It's time to buckle up  
Will you share with me some courage?  
Will you share with me some love?

Now shave your face all nice and clean  
And fix your tie just right  
No church, no bar, and no museum  
Will ever make this right  
As we kneel before the statue  
Virgin Mary, lift me up  
We'll say your name ten times  
But it just won't be enough  
It's never enough  
It's never enough  
We'll say your name ten times  
But it just won't be enough  
It's never enough  
It's never enough

Now shave your face all nice and clean  
And fix your tie just right  
No church, no bar, and no museum  
Will ever make this right

As we kneel before the statue  
Virgin Mary, lift me up  
We'll say your name ten times  
But it just won't be enough  
As we kneel before the statue  
Virgin Mary, lift me up  
We'll say your name ten times  
And it just won't be enough  
It's never enough
