

# Dark Energy

Dropout Kings

Yeah  
Yeah  
Yeah  
Black Cat Bill

Fightin my foes, their pain is my remedy  
Counting my scars as hard as their memories  
Rip off my skin, my limbs and dismember me  
Blowing minds and crushing hearts, I'm dark energy

Throw up my fist  
Tell me what's blacker than this?  
The coppers they hate I exist  
But I was the first with it, I put the work in, now I am right back on my sh  
it  
Got cuts on my back and my wrists  
But I got the ice and the drip  
And I swing my blade off the hip  
And I smoke my loud in the whip  
Bang my shit it's real loud in my whip  
I got too good of foot work to trip  
Cryomancer boy I never slip  
I'm like iron when it comes to grip  
I'm the captain when it comes to the ships  
I'm a ninja if we talking bout flips

Flip a ninja like what is you talkin bout  
We gon put broken glass all up in his mouth  
Make em chew it up and no they can't spit it out  
They just wanted to provoke me, look at em now  
I was eager for revenge but I'm fiendin now

With the flow I paint gore in the scenery  
I came back for all those who were mean to me  
Retribution if you ask what it means to me  
Ima tell you it feels likes it's everything  
Like it's everything

Man on Fire ima burn em up  
Neptune how I make me drown  
Fujin leave in the wind  
Make a earthquake put em in the ground

They been debating who run the city  
I feel like my head could fit the crown  
But I'm an assassin who been on a mission  
Don't fit in a box but I fit the description, I'm...

Fightin my foes, their pain is my remedy  
Counting my scars as hard as their memories  
Rip off my skin, my limbs and dismember me  
Blowing minds and crushing hearts, I'm dark energy

Go against I get beat like there's 10 of me  
Do what I want, give a fuck bout the industry  
Jump off cloud 9, sky dive into misery  
Blowing minds and crushing hearts, I'm dark energy

Ho I'm legit  
Little Bitch I'm legit  
Trap metal menace I'm nothing like Dennis, bet you didn't fathom I turn into  
this  
I meet your misses I'm makin her miss  
When I get pissed I ain't grabbin no pis-stol  
Even if had the stick  
I prefer to tape a bomb to your ribs  
You off of a cliff, I'm hittin the switch

I'm good for a mix, the smoke in the spliff  
I'm right near the zenith I'm high as a (shhh)

Back for a lick, she blew me a kiss  
But I am too focused to even notice

Cooler than Nas when he was in Belly  
6 deep in Chevy the metal was heavy  
My mind caught momentum my heartbeat was steady  
My real name is Mailliw but you call me Eddie

Take aim at your top and then chop chop chop chop chop  
Blood in the street someone get me a mop  
I took my anger and made it a bop  
Took all the valuables, took out the ops

Bands keep on crying they ain't on a lists  
Rappers keep crying support don't exist  
I just be laughing like what can I tell em, I'm going on tours, we writing t  
hese hits

Really I tell em that they ain't seen shit  
If this is a iceberg it's only the tip  
Don't mean to shock you but you ain't the current cause currently you ain't  
as good as it gets
