

Down In The Dirt

Drowning Pool

A darkness weights upon the tip of fire that burns with us
Swallowing all these questions born inside this stasis
I can feel them even here now all the eyes are far too many
There's no escape for me

1 2 I'll bury you
2 3 you bury me
4 5 bury you alive

Hey you
Get down in the dirt
Hey you
Get down in the dirt
Hey you
Get down in the dirt
Every worm just make things worse
In the dirt the dirt the dirt
Down in the dirt the dirt the dirt

A shadow keeps itself around the edges of my sight
So much like the violence waiting just under my skin
I can tell you even right now as the voices never ending
There's no relief for me

1 2 I'll bury you
2 3 you bury me
4 5 bury you alive

Hey you
Get down in the dirt
Hey you
Get down in the dirt
Hey you
Get down in the dirt
Every worm just make things worse
In the dirt the dirt the dirt
Down in the dirt the dirt the dirt
Get down in the dirt the dirt the dirt
In the dirt the dirt the dirt

It's all a mistake, tell yourself
This existence is for somebody else

You're dead getting deader, dead getting deader
Dead getting deader every day
You're dead getting deader, dead getting deader
Dead getting deader every day
You're dead getting deader, dead getting deader
Dead getting deader every day
You're dead getting deader, dead getting deader
Dead getting deader every day

Hey you
Get down in the dirt
Every worm just make things worse

Hey you

Get down in the dirt
Hey you
Get down in the dirt
Hey you
Get down in the dirt
Every worm just make things worse
In the dirt the dirt the dirt
Down in the dirt the dirt the dirt
In the dirt the dirt the dirt
Down in the dirt the dirt the dirt
