

## Horns Up

## Drowning Pool

I got nothing to lose, nothing to prove  
Yet the clock keeps ticking, ticking my time away  
My sweet mother ain't got nothing to save  
I got one foot in the gutter, one in the grave  
I'm asking why, why, why  
Do you wanna see me try, try, try  
Fall back kick it through to another day  
Spit the bit cut the reigns make it go away

C'mon get up, get down and give your horns up  
Raise your horns up  
I feel it coming over me  
C'mon get up, get down and give your horns up  
Raise your horns up  
I feel you breaking under me

Well I'm coming at you 1, 2, 3 double fist pounding baby  
I say you better think twice crosses fall when you're  
running with me  
I'll take you down, down, down  
Kickin till your 6 feet under the ground  
Smoke that ass like the days last cigarette  
Light the fires burn the tires screamin blood and sweat

It's taking control taking control of me  
I feel you breaking under me
