

Mind Right

Drowning Pool

I was born into this world to dominate
Dominate
And by my pride and blood labeled reprobate
Reprobate

There's no more to say (How can you say)
I know only pain will lead my way

It's time
To get your mind right
Now
Choose a side
It's time
To get your mind right
Get it, get it, get it right
Right now

If I should objectify they vilify
To reassign
Or transition admonition
It's a goddamn contradiction

What can you do (There's no more to say)
They know only fear rules you

It's time
To get your mind right
Now
Choose a side
It's time
To get your mind right
Get it, get it, get it right

It's time
To get your mind right
Now
Choose a side
It's time
To get your mind right
Get it, get it, get it right
Right now

We stand on the world stage
While the news lens magnify
That's right
They watch us kill our own here at home
All with laughter in their beady eyes
Old money rules this government hoax
It's an inside joke (It's an inside joke)
If I eat I choke, I eat I choke
I choke, choke, choke

Lead my way

It's time
To get your mind right
Now

Choose a side
It's time
To get your mind right
Get it, get it, get it right

It's time
To get your mind right
Now
Choose a side
It's time
To get your mind right, right

Mind right
Choose a side
Mind right
It's time
So get your mind right
