

## Despoiler of the World We Know

### Drowning the Light

I am the spear in the side of christ  
I am all you fear and spite  
The flame that ignites your feeble church  
The crushing defeat that you makes you hurt

I am the black smoke in the air  
I am death and despair  
The immortal spirit of the past  
The one who makes you the last

Heresy! Bringer of the old cold  
Heresy! Despoiler of the world we know.
