

## Sic Itur Ad Astra

### Drowning the Light

Cloaked in the shadows of the dead  
and robed in the skin of damnation  
Black sun and black moon  
The power of will, the power of flesh

Ordo ater anguis  
Luceat lux vestra  
Sine metu  
Sic itur ad astra  
Lux ex tenebris  
Mors omnibus

The standard bearer of plague and lust  
The illuminated eye opens

Luciferi Lux Mea Est  
Sic itur ad astra
