Dru Hill

Yo, yo, can ya'll hear me out there?  
Cool ,cool  
Allow me to introduce myself, ladies and gentlemen  
See, I go by the name of Big Woody Rock  
And I'd just like to take this time right here to just first of all thank yo  
u all  
For taking the time out to listen to this album  
Hope you're enjoying everything you're hearing so far  
But right now I just think I need to dedicate this song  
This next song coming up, to every man, woman, boy, girl  
Who ever and where ever you may be  
Who's ever been in a relationship that just didn't quite work out

Also this song is dedicated to everybody who comes up to me in all the clubs

Supermarkets, airports, and every where else in the world  
Asking me "Woody when you goin' do something? When they goin' let you sing?"

Not knowing that I sang all of "April Showers"  
A verse on "All Alone", a verse on "5 Steps" and 'bout half the songs on the  
album  
But that's cool, ya'll ain't know, but right now I just want you to sit back

Close your eyes, kick your feet up and listen to this song right here  
Cuz this here is for y'all  
Yo, smiley you ready?  
Lets do this

Girl, it's been so long  
Since I held you in my arms  
So I picked up pen and paper  
And decided to write you a song

Things just ain't the same  
Since you took your love away  
All I have is dark and lonely days  
Cuz the sun don't shine my way

Wish that I can find the words  
To say to show you love is real  
The words just can't express the way I feel

You're my angel  
My sun up in the sky  
We've been through hell and back together  
Why you wanna leave me now  
Only you can ease the pain I feel  
And wipe my tears away  
Won't you fly back home and make me whole again

Baby not a day goes by  
That I don't want to cry  
When I think of what we had  
And how you walked out of my life

All I had was yours to take  
Till my heart you chose to break

Still wish that I can make love to you  
Just one more time for old times sake

If only I could find the words  
To say to show you love is real  
The words just can't express the way I feel

Come back home  
Come back home  
Cuz without you here beside me, girl  
My house is not a home

Only you can ease the pain I feel  
And wipe my tears away  
Won't you fly back home  
And make me whole again

Cuz you're my angel  
My sun up in the sky  
We've been through hell and back together  
Why you wanna leave me now  
Only you can ease this pain I feel  
And wipe my tears away  
Won't you fly back home and make me whole again

You're my angel  
My sun up in the sky  
We've been through hell and back together  
Why you wanna leave me now  
Only you can ease the pain I feel  
And wipe my tears away

You've been gone too long  
So won't you come back home
