

# Never Stop Loving You

Dru Hill

You know I never stopped wanting you  
You know I never stopped needing you  
You know I never stopped loving you  
Without you I can't do a thing

Girl I wonder what went wrong, where we fell apart  
From a love that was so strong, I wonder where our  
thoughts got lost, somewhere  
twisted and now, I'm trying to pull myself from off the ground  
girl I just wanna know where, how, and who are you loving now.  
I need you now  
we need to work it out somehow  
cuz I can see a part of me  
with you is where I need to be

(I wanna know why, where, who's gonna love you if I'm gone and girl I swear  
I'll hold on...)  
You know I never stopped wanting you  
You know I never stopped needing you  
You know I never stopped loving you  
...Cuz without you I can't do a thing

(Where, who's gonna love you if I'm gone. And girl I swear I'll hold on...)  
You know I never stopped wanting you  
You know I never stopped needing you  
You know I never stopped loving you  
...Without you I can't do a thing

I'm puzzled  
my heart is slowly dying cuz I don't know  
why I keep on trying when you're so cold  
why I keep on crying only Heaven knows  
it's something deep inside I just can't let it go  
I'm about to lose my mind, girl I can't sleep no more  
can't eat no more, girl I'm falling down  
this is all because we had a falling out  
I never meant to go that route  
Won't you pull me from the pain I feel inside  
enough to make the strongest man break down and cry  
would you come and wipe these teardrops from my eyes  
losing you is like losing my mind, cuz I need you in my life  
I wanna know...

(...Why, where, who's gonna love you if I'm gone, and girl I swear I'll hold  
on...)  
You know I never stopped wanting you  
You know I never stopped needing you  
You know I never stopped loving you  
...Cuz without you I can't do a thing

(Where, who's gonna love you if I'm gone, and girl I swear I'll hold on...)  
You know I never stopped wanting you  
You know I never stopped needing you  
You know I never stopped loving you  
...Without you I can't do a thing

I've loved you all my life

And I've learned sometimes make sacrifice  
do whatever it takes  
to make love turn around

You know I never stopped wanting you  
You know I never stopped needing you  
You know I never stopped loving you  
Without you I can't do a thing  
You know I never stopped wanting you  
You know I never stopped needing you  
You know I never stopped loving you  
Without you I can't do a thing

Baby I can't live another day  
without you in my life won't be the same.  
What will I do  
(can't take the pain)  
What will I do  
(won't be the same)  
What will I say  
(girl things have changed)

Come back to me, come back to me baby.  
Come back to me, come back to me baby.  
Come back to me, come back to me baby...
