

# Million Miles of Fun

Drug Church

These things I read about the way the world works  
I lift the spoon to socket and dig my eyes out  
These things I hear about the way the world works  
I bring the knife to ear and slice myself clear

News flash  
I need news less

Those things I learned about the way the world works  
I take roller to my thoughts and beat the knots out  
Those things I do about the way the world works  
Wonder will it amount to anything at all?

News flash  
I need news less
