I'm doing 80 miles and it's raining
I feel like I could fly tonight
I'm gonna get there or I'll die
In the middle of this Christmas night
I wanted to find you
Wanted to find you
Goodbye my sweet friend
I'll be waiting
It sure is cold up in the sky
Wish I could spend some time with you
Talk for a little while
I wanted to find you
Wanted to find you
I'm drifting slowly by and it's raining
Whatever happened to our lives?
I'm gonna get there or I'll die
In the middle of this Christmas night
I wanted to find you
Needed to find you
