

Affliction

Dry Cell

Verse 1:

Pressure me, I cannot feel it
Take to me, it's an accident

Verse 2:

Different feelings, same situation
I wanna fight against it all
I want the powerful to fall
Different feelings, same situation (the way it falls, that saves, that way, I need you)

Chorus:

There you are (and there you are)
Everything is going better, so what, whatever
There's no guarantees, only affliction
For the rest of us all

Verse 3:

Different meanings, same old reaction
You're just in fighting next to me
Until we're finding myself clean
Different meanings, same old reaction (the way it falls, that saves, that way, I need you)

Chorus:

There you are (and there you are)
Everything is going better, so what, whatever
There's no guarantees, only affliction
For the rest of us all

Bridge:

No more waiting, I must promise to
To be sworn to my own selfish rule
No more waiting, I must promise to
To be sworn to my own selfish rule

Chorus:

There you are (and there you are)
Everything is going better, so what, whatever
There's no guarantees, only affliction
For the rest of us all

Chorus:

There you are (and there you are)
Everything is going better, so what, whatever
There's no guarantees, only affliction
For the rest of us all
