

# Silence

Dry Cell

i belive that im hangin by a string  
and im feeling so small in a world full of big things  
undone and im ready to explode on the thing i dont know  
and i just wanna let go  
understand that the way that i am is a product of a scam that y  
ou pull on the last man  
undone and im ready to explode on the things i dont know and i  
just wanna let go

surprise my eyes were open  
dont suffocate whats broken  
are you ever done are you ever free  
silence makes me numb with out you

you believe taht your chanign everything  
and your feeling so tall that you can even see me  
undone and im read yto explode on the things i dont know, and i  
just wanna let go  
understand that the way that i am is a product of a way that yo  
u wanna play my hand  
undone and im ready to explode on the things i dont know,

surprise my eyes were open  
dont suffocate whats broken  
are you ever done are you ever free  
silence makes me numb without you  
how can this go on take it all from me  
silence makes me numb without you,

i never meant to cause you pain,  
fighting aggrivation causing suffocation,  
never meant to cause you pain,  
fighting aggrivation causing suffocation,  
i wont let you,

are you ever done are you ever free  
silence makes me numb without you,  
how can this go on take it all from me  
silence makes me numb without you,  
are you ever done are you ever free  
silence makes me numb without you,  
how can this go on take it all from me,  
silence makes me numb without you,  
without you, without you, without you
