

Jam After School

Dry Cleaning

Less bullshit masculine mountain conquering crap

Apply lipgloss in a pay toilet

All the people we know and love going to the places they love to go

How did he get that scar?

His brother cut him

No way

Real pig skin

Imaginary hot romance with Daniel Day Lewis

Welcome to the county of Hampshire

Jam After School

A stung lip

She's never known life without gut problems

Baseball cap and sunglasses, wear both?

I saw a schoolboy queue

Stretch sequins over your flesh

Give me a woman in a fancy hat at 2am

Cottage country lane

Double accident

A sausage roll and two mags will do me

If you didn't know

Buggies and luggage

Could you just

Can you just

What if you

Please?

We could be great together

If we just agreed to be

Brains changed by the sea

Everyone on the train is heartbroken

If you don't stop smoking your curves won't grow
