

It's my playground
Black skirt, shoes and trainers
Shane has joined the chat
It was chucking it down when I stepped out
It's not now
Come on then
Carl and Terry

"Are there llama plushies here?
In this shop?"
She's definitely in a league of her own
So just stream...
Sick of that shit

All the while
An exhausting walk in the horrible countryside
A tiresome swim in a pointless bit of sea
Knackering drinks with close friends
Thanks a lot
Simple pimple, stomach stab

What are the things that you have to clear out?
Baking powder, big jar of mayonnaise
What about all the uneaten sausages?
Clean the fat out of the grill pan

This is the hardest thing I've ever had to do now

Trying not to think about all the memories
Remember when you had to take these pills
Remember when you had to take these pills
Maybe I just need someone

Never talk about your ex
Never, never, never, never, never slag them off
Because then they know
Then they know

All the while
An exhausting walk in the horrible countryside
A tiresome swim
Knackering drinks
Thanks a lot

Simple pimple, stomach stab
