

# Act Of God

Dua Lipa

Wait a minute, uh

You came to me without warning  
And I was unprepared  
Losing all my intuition, tryna act like I don't care  
I'm so lost in all this madness  
So I'm throwing up a flare  
But you know, baby, I'm a problem  
Tryna act like I'm not scared

Caught me in ways that I can't explain  
You got me questioning all my faith  
I'm so confused  
Thought I could handle this tidal wave  
Hit me so hard I got slipped away into you  
(You-ooh)

Act of God, don't know how it started  
Now I'm boutta lose at all, but I can't control it  
I could try to run away, but I know I won't be safe  
'Cause I know there is no cheating my fate  
Act of God, 'cause I can't control it  
Wait a minute, uh

I'm lifted, my God  
And the ways we move  
Like the thing on the hood of my car (Car)  
Got me lifted (Lifted)  
Act of God (On God)  
Lay my hands on me, ooh  
Set my soul on fire (Ooh)

Could this be a revelation?  
Tell me, is this what I need?  
'Cause all this divine intervention  
I'm starting to believe  
Is this all an accident, or is this by design?  
I know I didn't ask for it  
But now I need it to be mine (Need it to be)

Caught me in ways that I can't explain  
You got me questioning all my faith  
I'm so confused (Confused)  
Thought I could handle the tidal wave  
Hit me so hard I got swept away into you  
(You-ooh)

Act of God, don't know how it started  
No I'm boutta lose at all, but I can't control it  
I could try to run away, but I know I won't be safe  
'Cause I know there is no cheating my fate  
Act of God, 'cause I can't control it  
Wait a minute, uh

I'm scared of the fall  
Scared of losing it all, losing my way  
It's my way or nothing

But you give me something I just can't explain  
But then I got lost, lost in you, babe  
Got lost in your ways and nothing can save me  
Nothing can save me

Act of God, don't know how it started  
No I'm boutta lose at all, but I can't control it  
I could try to run away, but I know I won't be safe  
'Cause I know there is no cheating my fate  
Act of God, 'cause I can't control it  
Wait a minute, uh

I'm lifted, my God  
And the ways we move  
Like the thing on the hood of my car (Car)  
Got me lifted (Lifted)  
Act of God (On God)  
Lay my hands on me, ooh  
Set my soul on fire (Ooh)
