

# Afterlight

Dua Lipa

Fill me up  
So close I've got you face to face  
Playing rough  
Can't help it when you say my name

I wanna feel you closer  
I'm losing my composure  
I'm drowning in a pool of adrenaline  
I wanna feel your thunder  
I'll let you take me under  
Shakes and shivers riding up my skin

Afterlight, dirty dancing in the dark tonight  
You and I  
Baby, we can set the world on fire  
I, dawn is here, I'm coming 'round  
I love the way you hold me down  
Afterlight, dirty dancing in the dark tonight

Silhouettes  
And shadows moving in our bed  
Take a guess  
Tell me what you think happens next

I wanna feel you closer  
I'm losing my composure  
I'm drowning in a pool of adrenaline  
I wanna feel your thunder  
I'll let you take me under  
Shakes and shivers riding up my skin

Afterlight, dirty dancing in the dark tonight  
You and I  
Baby, we can set the world on fire  
I, dawn is here, I'm coming 'round  
I love the way you hold me down  
Afterlight, dirty dancing in the dark tonight

Afterlight, better do me right  
Afterlight, need you by my side  
Afterlight, better do me right  
Afterlight, need you by my side  
Afterlight, better do me right  
Afterlight, need you by my side  
Afterlight, better do me right  
Afterlight, need you by my side

Afterlight, dirty dancing in the dark tonight  
You and I  
Baby, we can set the world on fire  
I, dawn is here, I'm coming 'round  
I love the way you hold me down  
Afterlight, dirty dancing in the dark tonight
