

# Good Things

Dua Lipa

Baby, turn the lights down  
Down, down, down, down  
Do it for me right now  
Now, now, now, now (Oh)  
Baby, turn the lights down  
Down, down, down, down  
Do it for me right now  
Now, now, now, now

Heavy like the bass-line  
Way past "Good Girl" bed time  
Had too much, drunk as fuck  
Swaying to those red lights  
On my worst behavior  
Making out with strangers  
Dusty buzz, feel the rush  
Speeding through my head

I can feel it coming over me  
Can you feel it? It's all over me  
I can feel it coming over me  
Can you feel it? It's all over me

Good things, good things  
Happen past midnight, midnight (Oh)  
Good things, good things  
Happen before sunrise, sunrise  
Baby, turn the lights down  
Lights down, lights down  
Do it for me right now  
Right now, right now  
Baby, turn the lights down  
Lights down, lights down  
Do it for me right now  
Right now, right now (Oh)

Dirty like the dance-floor  
Psychedelic candy store  
In a transe, dizzy stance  
I got what you're looking for  
Naughty indication, give into temptation  
Late at night, what a high  
When we conversate

I can feel it coming over me  
Can you feel it? It's all over me  
I can feel it coming over me  
Can you feel it? It's all over me

Good things, good things  
Happen past midnight, midnight (Oh)  
Good things, good things  
Happen before sunrise, sunrise  
Baby, turn the lights down  
Lights down, lights down  
Do it for me right now  
Right now, right now

Baby, turn the lights down  
Lights down, lights down  
Do it for me right now  
Right now, right now (Oh)

Good things, good things  
Happen past midnight, midnight (Oh)  
Good things, good things  
Happen before sunrise, sunrise  
Baby, turn the lights down  
Lights down, lights down  
Do it for me right now  
Right now, right now  
Baby, turn the lights down  
Lights down, lights down  
Do it for me right now  
Right now, right now (Oh)
