

# Not My Problem

Dua Lipa

We doing good  
We doing good  
That's your problem

Pulling me down like an anchor  
Saying it's my fault you're angered  
Telling me no one will love me (Watch your mouth)  
Telling me I'm gon' be lonely  
(Watch me, watch me, watch me, watch me now)  
You had me on for a good run  
Thinking that you were a good one  
Under your palm, yeah, you like that (What the fuck?)  
Now it's my turn to bite back (I've had enough)

Ooh, did it to yourself  
Playing with my mind  
Putting me through hell  
Ooh, I'd be broken too  
If you left me like  
Like I left you  
(That's your problem)

Not my problem, not my problem  
Call it what you want, but you're not my problem  
Crying all the time, but you're not my problem  
If you got issues (That's your problem)  
Not my problem, not my problem  
Call it what you want, but you're not my problem  
Crying all the time, but you're not my problem  
If you got issues (That's your problem)

Doing it all for reaction  
Doing the most in your caption  
Making me seem like the bad guy (Watch your mouth)  
Tryin' to bring me down, but nice try  
(Watch me, watch me, watch me, watch me now)

I used to like you  
How did I like you? (What the fuck?)  
I used to like you  
And now I don't (We doing good)

Ooh, I'd be broken too  
If you left me like  
Like I left you  
(That's your problem)

Not my problem, not my problem  
Call it what you want, but you're not my problem  
Crying all the time, but you're not my problem  
If you got issues (That's your problem)  
Not my problem, not my problem  
Call it what you want, but you're not my problem  
Crying all the time, but you're not my problem  
If you got issues (That's your problem)

I thought I liked you, I thought you was cool

But I'm a thot when I be drinking, don't be thinking shit through  
Nevertheless, you got the clue  
And now you blue 'cause I ain't speaking to you  
Aww, boo boo, you'll be cool, don't boo-hoo  
Boo, what's the issue?  
JID j-just listen, this bi-, this chick trippin'  
I'm dipping, I'm dipping, I'm done with it  
I'm stupid, I'm dumb, come with it  
I've heard them all  
I'ma call you one name (That's your problem)

Not my problem, not my problem  
Call it what you want, but you're not my problem  
Crying all the time, but you're not my problem  
If you got issues (That's your problem)  
Not my problem, not my problem  
Call it what you want, but you're not my problem  
Crying all the time, but you're not my problem  
If you got issues (That's your problem)
