

## We're Good

Dua Lipa

I'm on an island  
Even when you're close  
Can't take the silence  
I'd rather be alone  
I think it's pretty plain and simple  
We gave it all we could  
It's time I wave goodbye from the window  
Let's end this like we should and say we're good

We're not meant to be like sleeping and cocaine  
So let's at least agree to go our separate ways  
Not gonna judge you when you're with somebody else  
As long as you swear you won't be pissed when I do it myself  
Let's end it like we should and say we're good

No need to hide it  
Go get what you want  
This won't be a burden if we both don't hold a grudge  
I think it's pretty plain and simple  
We gave it all we could  
It's time I wave goodbye from the window  
Let's end this like we should and say we're good

We're not meant to be like sleeping and cocaine  
So let's at least agree to go our separate ways  
Not gonna judge you when you're with somebody else  
As long as you swear you won't be pissed when I do it myself  
Let's end it like we should and say we're good

Now you're holding this against me  
Like I knew you would  
I'm trying my best to make this easy  
So don't give me that look, just say we're good

We're not meant to be like sleeping and cocaine  
(Like sleeping and cocaine)  
So let's at least agree to go our separate ways  
(To go our separate ways)  
Not gonna judge you when you're with somebody else  
As long as you swear you won't be pissed when I do it myself  
Let's end it like we should and say we're good
