

Tequila on the west side, head first on a one way
Hit it like last shot spinning the room
Hotter than July, make a Fantasy real, hand on the wheel
Tell me what you like, tell me about you

Keep it quiet on our time
Tell me what's the mission
I can see it in your eyes
How the gold glisten
I might lose my mind tonight
With the top missing
With your top missing
Make me feel I'm chosen

I feel alive, tell me extra lies
I'm so fucking high, sign of the times
Two Shadows in the night
Is it wrong or right? Feel so alive
I feel alive, I feel alive, tell me extra lies
I'm so fucking high, sign of the times
Two shadows in the night
Is it wrong or right? Feel so

You in the area, clouding my judgment, no weed, yeah
Monday to Sunday, your body be calling for me (For me)
It was no issue to come and see me on the weekend, weekend
That don't make sense

Keep it quiet on our time
Tell me what's the mission
I can see it in your eyes
How the gold glisten
I might lose my mind tonight
With the top missing
With your top missing
Make me feel I'm chosen

I feel alive, tell me extra lies
I'm so fucking high, sign of the times
Two Shadows in the night
Is it wrong or right? Feel so alive
I feel alive, I feel alive, tell me extra lies
I'm so fucking high, sign of the times
Two shadows in the night
Is it wrong or right? Feel so
