dua saleh

I just stepped inside
Oh ahlalay
I'm here with my pride
Oh ahlalay
Well what's there left to hide?
Oh ahlalay
Well why'd y'all get so shy?

Stepped right off my flight
Ay lala lay
The people around me pine
Ay lala lay
The DJ gets me right
Ay lala lay
I got me something right

Oooooe
How she grind on me slowly
Purple haze in the ocean
Fairy dust in the low seats

Oooooe
How she grind on me slowly
Purple haze in the ocean
Fairy dust in the low seats

(Tell me something I wanna hear)

Boom when I walk on the beat
Don't say nothing show my teeth
Tip your neck to the pound of the heat
I just got a new one obviously

Boom when I press repeat
New groove spout that melody
And I get it often week by week
Always got a new flow oh my sheet

You wanna jump in the hot tub with me
Wanna get a drink or a frappé with me
You wanna jump in the hot tub
What it do what it do

You wanna go to a new club with me
Wanna see a wink and a lap dance with me
You wanna bump in a new club
What it do what it do

(Tell me something I wanna hear)

Talk of the town
Wanna lean in the front
Kiss on my neck

While I kiss on a blunt

It hit me back
Guess it's packing a punch
Her pussy leak from my aura and such
Boy watch your shorty she doing too much

She want me to eat her might have her for lunch
I got a tongue for much more than her lust
Pass me the dutchie I ain't in no rush
