

# Road to Babylon

Dub Fx

I walk alone on this road to Babylon  
I play the reggaeton and I burn a spliff alone  
I feel a fire that's higher than Al Capone  
I wanna get deep like the lake of Balaton  
So get down low if you wanna get it on  
And bounce like so yes and move it all around  
Now jump up high if you wanna carry on  
Put your hands to the sky, yes we're gonna jump around  
Now move to the sound of your loud stereo  
We're gonna go around just like a merry go  
Now buckle up tight everybody here we go  
You might get a fright and loose your ego, ey  
You wanna know what you all already know  
You just don't know that you have it in your soul  
Now make your soul glow just like a UFO  
And get down deep to feel your inner flow, ey

I walk alone  
I walk alone  
I walk alone, I walk alone  
Yeah yeah, alright

I'm taking the time to produce my devotion  
Feel the power of my flame and reuse my emotion  
Like an ocean of a vein from the rush of an explosion  
I'm a trap to my brain, conceded by my notion  
Pressurize my eyes so I can see the greater picture  
Realise my size and see the truth about my stricture  
Let the truth arise in the form of literature  
So no lies inside deteriorate my signature  
I'm a treacherous mind to my body that is lost  
A frozen dangerous rhyme my consciousness has turned to frost  
I've lost my sense of time yet my history is embossed  
In my mind so I'll find a goal at any cost, now  
Take back the agony that's in front of me  
Or let it be and forever see it as a positivity  
You're free to be what you wanna be  
But realistically it's all a dream, it's all a dream yeah

It's all a dream  
It's all a dream  
It's all a dream
