

Sunny Daze

Dub Fx

Sunny days that never end
In the warm sunshine hangin' with my friends
It's a beautiful recipe to fall in love
Music plays a melody
While the warm air gently kisses me
Children fly their kites up high above
Lovers walk by holding hands
Children chasing ice cream vans
Smell of summer blossom in the air
Wooo woo woo woo
Birds are tweeting from the sky
Butterflies are floating by
We go about our days without a care
We go dancing to the Broken Beats
Romancing out in the streets
Enhancing with a couple of treats
It's enchanting
How life can be so wonderful
on a hot summer's afternoon
Sunny days that never end
In the hot sunshine hanging with my friends
It's a beautiful recipe to fall in love
Music plays a melody
While the warm air gently kisses me
The children fly their kites up high above
Oh lovers walk by holding hands
Children chasing ice cream vans
The smell of summer blossoms in the air
Birds are tweeting from the sky
Butterflies are floating by
We go about our days without a care
