

## Pain

### Dub War

Gangsters on the corner  
Dem all fire gunshot  
Police in adem uniform  
They fire shots back  
innocent bystanders  
bite the bullet once again  
with laws full of discrepancy  
it's only us to blame  
you say you want to work it out  
yet stick a gun into my mouth  
an then you calmly shout  
this worlds at peace  
I shaully doubt

I see no equal rights or justice only  
Pain  
Dats running in your vain  
man made pain  
an it's only us to blame  
oh well
