

## Wild Wild East

Dubioza Kolektiv

Welcome everybody to the wild, wild east  
We left the doors open, don't need the keys  
Coming from the land or coming from the seas  
People get around in the \*colour of the bees

Back once again from the lion's den  
Understand, all we need is you my friend  
We're gonna bring some positive vibes  
Push dem bad on the other side

Hit a little stronger, we will rock that thing  
Rub-a-dub style with a Balkan swing  
Turn the bass up cos the record spins  
Roll it, pass it, smoke that green

Back once again from the lion's den  
Understand, all we need is you my friend  
And I don't know why I got a need to say  
Damn! This DJ made my day

Give it to the people cos they want it stronger  
Got a situation that will last little longer  
Follow the tempo, beat goes faster  
There's no control and there's no master

Mash up the sound that takes us closer  
Take us up and down like roller coaster  
I don't know why we just can't stop  
DJ let the beat drop!

Op-na-ne-na-ne-ne  
Na-ne-ne-na-no-na  
Op-na-ne-na-ne-ne  
Na-na-ne-ne-na-no-na

(Drop...)
