

# Hygiene Strip

Dubstar

Waiting my space in the quene  
See me just behind the striped line  
Crumple list is contaminated  
Just like the view

Shelter in places anew  
Safer spaces turned the air blue  
Was holding out for a feeling  
And the face that i knew

Before the "all knew you"  
Join the line and tore my conscience in two  
On cue

Deliberately refined  
When did you learn to laugh and be kind ?  
I'ts not the first time  
I've been unclean or acted uncool  
Avoiding dishing the dirt  
Doesn't mean i didin't get hurt  
You always looked more approachable  
In casual shirts

This isn't Hollywood  
And Holly wouldn't have done  
The thing you told me i should  
For you

Here on the hygiene strip  
Sun setting on the whole town  
My freedom went to the wall  
Before the lock went down  
You didin't won't me arround

All down the hygiene strip  
Secretly hoping i would see you  
But no-one would want to  
In a line like this  
Must be a illegal to kiss

By now  
By now

And i hate the way you look at my shoes  
I wore something knew  
The last time i came  
But there was no-one i knew  
Or you

Here on the hygiene strip  
Sun setting on the whole town  
My freedom went to the wall  
Before the lock went down  
You didin't won't me arround

All down the hygiene strip  
Secretly hoping i would see you

But no-one would want to  
In a line like this  
Must be a illegal to kiss

By now  
By now  
By now  
By now
