

# Mercury

Dubstar

Do I fail you  
Do you scare yourself  
I know you're not a saint yet  
Neither am I  
I guess that time put out the flame  
Now I don't ever know  
The meaning of my name

How can it be over, when it hadn't begun?  
How could it be over, it hasn't begun?

Free to come now  
Be alone in the flesh  
And I won't think of you  
You don't wan't me too  
I'll try to see myself  
Should I step into the lake  
Free like mercury  
The past we must forsake

How can it be over, when it hadn't begun?  
How could it be over, it hasn't begun?

I write this song for you  
As a contract for the love  
And what was true or not  
Won't compare to thee ever  
I'll try and hold my head  
Should I fall into the sea  
Free like mercury  
If only I could be

Over, what hadn't begun  
How can it be over  
It hasn't begun

How can it be over  
When it hadn't begun?  
How can it be over  
It hasn't begun
