

## Stay

Dubstar

I got you And I willing to prove If you want it right now I'll  
be ready to go Cos I'm no-one And I've nothing to move To just  
let you right in And paint my world when you lose

So lay here in the sun And let Sarah make it better Your life h  
as just begun And Sarah makes it better

Stay, I'll make you better Stay, I'll see you right Stay, I'll  
be your father Stay, I'll take it tight

I got you And I willing to prove If you need me right now I'm t  
he one that you new Cos I'm no-one With a great set of moves An  
d I can move it with you And fill your world like you knew

So lay here in the sun And let Daddy make it better Your life h  
as just begun And Sarah makes it better

Stay, I'll make you better Stay, I'll see you right Stay, I'll  
be your father Stay, I'll take it tight
