

## aNYway

## Duck Sauce

Time after time I told myself I've got nothing to lose  
Time after time I told myself I've got nothing to lose  
Time after time I told myself I've got nothing to lose  
Time after time I check myself just to make sure

I can do it anyway that you want it  
I can do it anyway that you want it (Oh)  
I can do it anyway that you want it  
I can do it anyway that you want it

Time after time I told myself I've got nothing to lose  
Time after time I told myself I've got nothing to lose  
Time after time I told myself I've got nothing to lose  
Time after time I check myself just to make sure

I can do it anyway that you want it  
I can do it anyway that you want it  
I can do it anyway that you want it (Oh, oh, baby, let's get it  
on)  
I can do it anyway that you want it (Don't hesitate)

Time after time I told myself I've got nothing to lose  
Time after time I told myself I've got nothing to lose  
Time after time I told myself I've got nothing to lose  
Time after time I check just to make sure

I can do it anyway that you want it  
I can do it anyway that you want it  
I can do it anyway that you want it  
I can do it anyway that you want it
