

# A WILDFIRE

Duckwrth

I swear the whole world's makin' me anxious  
I feel like I'm at the bottom, yeah  
I'm still smokin' on new puss  
That's one more night in the coffin  
And when I crash on the bottom  
That's one big fall like its autumn  
Momma said call on Jesus  
But I'm too ashamed to call him, yeah

There's no peace in the garden  
I said, there's no peace in the garden, yeah  
So much smoke in the garden  
And it's often in the promise, you say

Ok, it's like one more night I been ganked in  
Blowin' out ganja, shit got me coughin'  
[?] coupe got that bitch lookin' topless  
And I promise, we ain't slowin' down for nothin'  
Even when the world comes crashin down  
Buildings fallin', trees burnin' all around  
I'll be speedin', [?]  
Y'all niggas can't take me now

There's no peace in the garden  
I said, there's no peace in the garden, yeah  
So much smoke in the garden  
And it's often in the promise, that's fire

I won't ever stay down  
And I [?]  
I don't vibe with non-believers  
No one who is down that road  
I want peace, I wanna fall in love  
Want everything around me to be the dirty [?]  
I wanna leave, when I get outta here  
This way I'm never lookin' back [?]  
I want peace, I wanna fall in love  
Everything around me to be the [?]

There's no peace in the garden  
I said, there's no peace in the garden  
I said, there's no peace in the garden  
There's no and I promise that's fire

There's no peace in the garden  
I said, there's no peace in the garden, yeah  
So much smoke in the garden  
And it's often in the promise, that's fire
