

Blakk Rager

Duckwrth

D-d-damn this nigga uugly

Shit gets ugly in the moshpit (yea)
Pretty boys get bummy in the moshpit (boy)
Keep responses no money in the moshpit
Just a couple angry sunnies in the moshpit (that's real)
So throw a kick, throw a fist up in the moshpit (what else)
Bad day lose your shit up in the moshpit (shit)
Bad vibes watch it shift up in the moshpit (shift)
Want a hug catch a fist up in this moshpit (that's love)
Dirty mouth cuts when we talk shit
That's the way to spread love in the moshpit
If he falls pick him up in the moshpit
Brush him off and throw cuz back in the moshpit

And tell them niggas yea
I'm right here, right here, we right here
Yo I'm right here, right here, we right here
Girl I'm right here, right here, we right here
Tryna pick up a nigga, pick up a nigga
Tell them that I'm right here, right here, we right here
Yo I'm right here, right here, we right here
Yea I'm right here, right here, we right here
Yea kick with a nigga, fence with a nigga

Screaming out, whoa...
See your mother in the moshpit (what else)
And I see your father in the moshpit (okay)
I know it's hard to even frame the comprehension of my rage with everything
that you've been taught about a moshpit
But I've moshed with
Black folks and skinheads
The same time you misled
If you think we different
You bleed red, I bleed red
You shoot me I be dead
We came thick like three dreads
And we came to fuck up the status
Every single color you will find up on the adlist
All paint together square radius that's massive
All unified for the cause if
You hate be cautious
We turn this damn world into a moshpit

And tell them niggas yea
I'm right here, right here, we right here
Yo I'm right here, right here, we right here
Girl I'm right here, right here, we right here
Tryna pick up a nigga, pick up a nigga
Tell them that I'm right here, right here, we right here
Yo I'm right here, right here, we right here
Yea I'm right here, right here, we right here
Yea kick with a nigga, fence with a nigga

Splash nigga splash nigga splash nigga (now what you talking about) splash
Splash nigga splash nigga splash nigga (go ahead and lay it out) splash
Splash nigga splash nigga splash nigga (now what you talking about) splash

Splash nigga splash nigga splash

Now this the end of the song
And all the stones turn to [?]
And all your dogs came along
To roam together (gether)
This the end of the jam
And all the force broke the dam
And we can flood through the land
To rise together (gether)
To rise together (gether)
