

# I'm Stressed

Duckwrth

Rush of blood to the head  
Look what I did  
Look what I did  
Look what I did  
Heart beat pumping so hard  
'Bout to break through my ribs  
Break through my ribs

Anxiety's poster child  
Consequences from going wild  
Sipping unholy water  
Swear to God I'm sober now  
No limit like the soldier now  
Took all this to slow me down  
Looking like my father  
Pray to God I'm not the

Pray to God I'm not the  
Reincarnation  
Pray to god I'm not the  
Reincarnation

Lately, I've been feeling  
I've been feeling stressed  
Lately, I've been feeling  
I've been feeling stressed  
I can't take the pressure  
Fill it in my chest  
Lately, I've been feeling  
I've been feeling stressed

Looking at a picture of my father and I'm feeling kinda trapped  
Mixed with a little bit of him and little bit of her, and a whole lot of tha  
t  
Who would've known I'm good at bad decisions? I'm trying to trim off the fat  
Everything I just told my girl gon' fuck up her world, I can never take that  
back  
How can we be more like Jon and Yoko Ono?  
Singing my song in my new favorite polo  
You singing along, but now I sing it solo  
Who would even dare wanna break up the band?  
Oops, it's was me and my one night stand  
Addiction to the pink, make me look like Cam  
Diplomat immunity, I'm good in both lands  
All of these emotions, I juggle with one hand

Pray to God I'm not the  
Reincarnation  
Pray to God I'm not the  
Reincarnation

Lately, I've been feeling  
I've been feeling stressed  
Lately, I've been feeling  
I've been feeling stressed  
I can't take the pressure  
Fill it in my chest

Lately, I've been feeling  
I've been feeling stressed

I can feel you  
I can feel your energy, energy, energy  
I can feel your, huh  
I can feel your energy, energy, energy  
I can feel your energy  
Energy through the phone
