

## Ken Doll

Duckwrth

Baby badder than Bella Hadid  
Baby bring me down to my knees  
You can tell me all that you need  
Got you asking "How is this free?"  
I do my best to give everything  
Your satisfaction is guaranteed  
You can tell me all you need  
I swear, to you, I won't be a tease  
I kneel, I submit, I surrender  
If you got a cult, I swear to god, I'd be a member  
Pouring up that Kool-aid, mix it in the blender  
Waist line is slender  
And I'll go down like the sunset

I love it when the sky is pink  
I bow my head and taste your drink  
You think I got a worship kink  
Everything is pink, pink, pink, pink, pink, pink, pink  
That's all I see, yeah  
Got me feeling trashy, pop it if you nasty  
Got me feeling trashy, pop it  
Everything is pink, pink, pink, pink, pink, pink, pink  
That's all I see, yeah  
Got me feeling trashy, pop it if you nasty  
Got me feeling trashy, pop it if you-

Like you're reading my mind  
I don't have to say what I want and I like that  
I can see your desire to fulfill my needs  
Fall on your knees  
Don't move till I cum  
Dance on me with your tongue  
Tell me I'm the one  
And it ain't no cake till you're done  
Will you do whatever to please me?  
Even if I don't make it easy  
Like the sun goes down in the evening  
Your head bows down in between me  
I'll do anything for you

I love it when the sky is pink  
I bow my head and taste your drink  
You think I got a worship kink  
Everything is pink, pink, pink, pink, pink, pink, pink  
That's all I see, yeah  
Got me feeling trashy, pop it if you nasty  
Got me feeling trashy, pop it  
Everything is pink, pink, pink, pink, pink, pink, pink  
That's all I see, yeah  
Got me feeling trashy, pop it if you nasty  
Got me feeling trashy, pop it if you-

Everything is pink, pink, pink, pink, pink, pink, pink  
That's all I see, yeah  
See, yeah

I tend to do anything for her

I tend to do anything for her  
My lips, my tongue, my will, it's hers  
I tend to do anything for her  
I tend to do anything for her  
My lips, my tongue, my will, it's hers

Wait, what am I doing?  
I gotta get out of here
