

Quick

Duckwrth

Don't get me started
What I got you wanted
Can't give you the world
But you know I can promise you
A house too big
With a car too quick
And if the shoe fits
You can get it too quick

I got something on my mind now
Let me chop it with you right quick
Cause I know you want the whole world
And you wanted me to wife it
You want to swerve in the nice whip
Strawberry and a ice wrist
But I got one question
Little momma can you red stick
Switching gears on the one ten
But you know I never exit
Get to flippin like a trap phone
But I never lose connection
If you feeling that i'm on your line
Hit me with the right click
And I put that on everything
You ain't met a nigga like this

Don't get me started
What I got you wanted
Can't give you the world
But you know I can promise you
A house too big
With a car too quick
And if the shoe fits
You can get it too quick

Too quick

Feeling good to be back now
Back the casa
Back in the whip at the condo
On that cheese like it's pasta
I just might buy you the rock
Pass you the rock
Cause you MVP on my roster
Get you the crib
Buy you the block
Feeling high like a rasta
I'm moving so quick
And no quitting and stopping
And time is my money
It's ticking and toking
These bitches is watching
These niggas is blocking
They want everything that we got
Cause I'm on your line
And I got the right pick
And I put that on everything

You ain't met a nigga like this

Don't get me started
What I got you wanted
Can't give you the world
But you know I can promise you
A house too big
And a car too quick
And if the shoe fits
You can get it too quick

Don't get me started
What I got you wanted
Can't give you the world
But you know I can promise you
A house too big
And a car too quick
And if the shoe fits
You can get it too quick
