

Super Good

Duckwrth

You got me so good
I can't even live
Without that good
Your so super good

Yeah
I been waiting for you all my life
Took it off and everything went right
Your the water on my leaves
When they try to get between us
I just hit the ball beneath like
Yeah
Can nobody do it quite this good
So easy to get misunderstood
Your the sun that's in the morning
You
Ten to lift me up
I jump back and hit the Jordan
Cause

You got me so good
I can't even live
Without that good
Your so super good

You got me so good
I can't even live
Without that good
Your so super good

Now what I mean by good
I mean that deep down feeling
That when the bass slap on ten and
Make you throw your hands to the ceiling
No when
Momma get to cooking that ooo
Feeling like she touch your spirits
God
Or when your crush slide in your dms
And slide your ass the digits
Yes
Or when they playing your favorite jam
Get to dancing in the club again
You got your boo on your left hand side
And you got your drink in the other hand
I told myself when I hear the beat oh
I grow my beard like Abraham
And promise is to promise land
So pull and we all go ham

You got me so good
I can't even live
Without that good
Your so super good

You got me so good
I can't even live

Without that good
Your so super good

Come in hit that Super good
One time two times
So good yeah
Come on in hit that Super good
One time two times
So good

Come in hit that Super good
One time two times
So good yeah
(All the way so good)
Come on in hit that Super good
One time two times
(All the way so good)

You got me so good
I can't even live
Without that good
Your so super good

You got me so good
I can't even live
Without that good
Your so super good
