too fast

Duckwrth

Touch on me, finally
Hands, they speak
Words that I've never known, no
I'll see you in a minute
Right now off limits
Skin to skin makes me lose control

I don't know why, time over time
I give like that
Talkin' or sweet, diving in deep
To a touch, crazy (Ooh)
That your lips fit so perfect on mine
There you go, runnin' my mind

Don't give it up, baby, don't give it up, baby, ah, ah
Don't give it up, baby, don't give it up, baby
You got it bad, always in a bit ain't too fast
In too fast
Why do I got to do to get up over you?
Jump high across the moon falling way too soon
I got it bad (Bad), in it too fast
In too fast

Hol' up, I be outside side, I be down with the movement
I be in the function, steppin' and groovin'
Far from the social media and computin'
In the real world, just connecting with humans
In evolution, I been evolvin'
Find a solution, like for example
I met a new chick, 5'5" slim thick
Black and Cuban, bitch, I'm smoothened
And normally, I try to find my way to the beach
So kissing on somebody or a cuddle release
It's not about what happens when you're under the sheets
It's all about the feeling, that connection with me
So, now, I'm tryna slow down
Like a slow jam out of Motown
'Cause she the type I'm really try to hold down
Brand new him, that's my pronouns

Don't give it up, baby, don't give it up, baby, ah, ah (Give it up)
Don't give it up, baby, don't give it up, baby
You got it bad (So bad), always been up in here too fast (Too fast, too fast
, too fast)
In too fast
Why do I get to do to get up over you? (To get up over you)
Jump high across the moon, falling way too soon (The moon)
I got it bad, in too fast (Too fast, too fast)
In too fast (Oh, yeah)

(I fell in down like)
(I slow down like)
Let's take a minute
Let's slow it down, slow it down
Let's take a minute
Let's slow it down, slow it down
Let's take a minute, uh

```
Slow down, motown
Slow down, motown
Slow down, slow down
```
