

Feel

Duff McKagan

You're here, still here
The summer gown
Brothers, sisters, and moms
Someone you love
You had enough
You went back to drugs
I guess you had enough

Feel
When the lights go down
You are still here
All you hold dear remains
I feel
When the lights go down
You are still here
All you hold dear remains

Hard knocks, bad luck
You been knocked down
You got back up
Rise up, shine on
Keep on fightin', the war is almost done
But then I hear you come

Feel
When the lights go down
You are still here
All you hold dear remains
I feel
When the lights go down
You are still here
All you hold dear remains

Your star never fades
Your star never fades
Your star never fades
All that remains
Is a love in my hands, oh

Feel
When the lights go down
You are still here
All I hold dear remains
I feel
That this picture framed
My heart remains from that does stay the same
I feel
When the lights go down
You are still here
All you hold dear remains
I feel
When the lights go down

You are still here
All you hold dear remains
