

Little Minx

Dum Dum Girls

Give Away all that's mine
Lay it down on the line
Close my eyes to what I know
You should never seek heaven below

What I see defines what I think
Like a self-possessed little minx
Shut my eyes and hold my breath
Watch me as I run down death

I struck you down
Baby please come around

I struck you down
Baby please come around

I struck you down
Baby please come around

I struck you down
Baby please come around

Please come around

Lay your halo down
What a vivid sound

Lay your halo down
What a vivid sound

Lay your halo down
What a vivid sound

Lay your halo down
What a vivid sound
