Dumbledore

I want you, take a look inside  
Know the difference between her and I  
Aren't you tired of your hype?  
Don't you wanna finally find somebody you like?

Chase the lights... I, I, I...  
Leave it alight...

What you lookin' at?  
What you lookin' at?  
What you lookin' at?  
What you lookin' at?  
What you lookin' at?  
What you lookin' at?

Gonna do, gonna do, hey  
What are we gonna do?  
Gonna do, gonna do, hey  
What are we gonna do?

You said we both want the same thing  
Want the same thing, get higher, oh  
But you just said the same thing  
All up on the same thing, you liar

Chase the lights... I, I, I...  
Leave it alight...

What you lookin' at?  
What you lookin' at?  
What you lookin' at?  
Smile on my way out  
What you lookin' at?  
You'll never change it up  
What you lookin' at?  
Boring, ah  
What you lookin' at?

Nothing special 'bout you  
Everybody's had you  
Nothing special 'bout you  
Everybody's had you

Look at your life  
What you lookin' at?  
What you lookin' at?  
Glad that I found my way out it  
What you lookin' at?  
Look at your life  
What you lookin' at?  
What you lookin' at?  
Glad that I found my way out it  
What you lookin' at?

What you lookin' at?  
What you lookin' at?  
What you lookin' at?

What you lookin' at?  
What you lookin' at?  
What you lookin' at?
