

# Take Away

Dumblonde

Take away all of my love for you  
Wide awake, you haunt my every move  
Bring me back to who I was before  
Stay away, I don't belong to you

(Take away) Take away the pain, give me back my heart  
I can't live without it, don't wanna love again  
(Take away) Take away the day I gave my heart away  
You never deserved it, take away

Left alone, leave me to see my own  
Make it so I fall for you no more  
Gravity, please pull me back to ground  
Tragedy, a heart that's turned to stone

(Take away) Take away the pain, give me back my heart  
I can't live without it, don't wanna love again  
(Take away) Take away the day I gave my heart away  
You never deserved it, take away  
Take away, take away  
Take away, take away

I'll forget this place, I refuse to stay  
I'll forget your face, no return  
Address unknown  
Left without a trace  
I'll forget this place, I refuse to stay  
I'll forget your face, no return  
Address unknown  
Left without a trace  
I'll forget this place, I refuse to stay  
I'll forget your face, no return  
Address unknown  
Left without a trace  
I'll forget this place, I refuse to stay  
I'll forget your face, no return  
Address unknown  
Left without a trace  
I'll forget this place, I refuse to stay  
I'll forget your face, no return  
Address unknown  
Left without a trace  
I'll forget this place, I refuse to stay  
I'll forget your face, no return  
Address unknown  
Left without a trace
