Get up, get up and move, move
Get up, get up and move, move

"Not gonna let you down"
That's what you said before you left her 'round
I don't want to let you down
Please don't light the way up
Stay on the way down honestly

Say what you wanna say
'Cause it's all the same
Do what you're gonna do
So say what you wanna say
'Cause it's all the same
Do what you're gonna do
'Cause I found about love

There's something 'bout you boy I wanna hate
Don't get too close 'cause I don't wanna play
Games, ha
There's something 'bout you boy I wanna hate
Don't get too close 'cause I don't wanna play
Games, ha

I wanna let you go, hey
Can't wait 'till I don't think of you no more
I just wanna let you go
Have fun on your way down
Won't let you weigh down the way I love

Say what you wanna say
'Cause it's all the same
Do what you're gonna do
So say what you wanna say
'Cause it's all the same
Do what you're gonna do
'Cause I found about love

There's something 'bout you boy I wanna hate
Don't get too close 'cause I don't wanna play
Games, ha
There's something 'bout you boy I wanna hate
Don't get too close 'cause I don't wanna play
Games, ha

There's something 'bout you I wanna hate, I wanna hate
Get too close and I won't hesitate, don't wanna play games
Something 'bout you I wanna hate, don't wanna hate
Get too close and I won't hesitate, don't wanna play games

There's something 'bout you boy I wanna hate
Don't get too close 'cause I don't wanna play
Games, ha
