

I found you in flares of city lights
And your corner's the streets that I passed by
Your heart beats a million miles away
But I feel you with me now

So please don't fade
Somewhere, some way

We've got a lifetime to live
I've got my whole heart to give
What can I hold on to
If I haven't met you?
All of our memories ahead
So many good times left
But what can I hold on to
If I haven't met you yet?

Imagine the sunset in July
We'll dance like the waves on the coastline
Imagine a dream where you don't wake
Can you make it all slow down?

We'll find our way
Somehow, someday

We've got a lifetime to live
I've got my whole heart to give
What can I hold on to
If I haven't met you?
All of our memories ahead
So many good times left
But what can I hold on to
If I haven't met you?

Nothing seems real without you
Ooh-ooh-ooh
Like I can't feel until I found you

We've got a lifetime to live
I've got my whole heart to give
What can I hold on to
If I haven't met you?
All of our memories ahead
So many good times left
But what can I hold on to
If I haven't met you yet?
