Heart

Dune Rats

You're still in my heart From the bottom of my heart You're still in my heart

Now you taste like regret Wishin' we'd never met I'll tend to forget, forget

Even though we're fine We made up my mind Careless jealousy Like you belong to me Even though we're fine

Just look at us now
Trying something, somehow
I'll tend to get loud
Loud, loud, loud

Even though we're fine We made up my mind Careless jealousy Like you belong to me Even though we're fine

Even though we're fine
We made up my mind
Careless jealousy
Like you belong to me
Even though we're fine

Even though we're fine
We made up my mind
Careless jealousy
Like you belong to me
Even though we're fine
