

# Main Beach

## Dune Rats

Sipping coke with a heroin  
Watch you lay as the storm comes rumbling in  
On the beach with the sunburn tan  
Swimming deep and I hope we don't see any things

Main beach in the summer time  
Cold feet and it happens nearly every time  
Go for broke, take your medicine  
Now I wish you'd never said said said anything

We both know  
It takes a lot to get in  
Take it slow  
And breathe before you get wet  
We both know  
We'll try and just regret it  
Take it slow  
This could get fast and hectic

Hop in front where the air is warm  
You skin is cold like an Arctic wind in the storm  
A little more of that we'll have for home  
You hit the brakes cause I need to be off of this foam  
Keep on watching our tattoo  
Nothing works if you don't know what it can do  
Nevertheless you can carry on  
When the wave is deep but you know you're strong

Well we both know  
It takes a lot to get in  
Take it slow  
And breathe before you get wet  
We both know  
We'll try and just regret it  
Take it slow  
This could get fast and hectic

I don't mind  
Give it away  
Wait behind  
Give me way  
I can tell it's on your mind

We both know  
It takes a lot to get in  
Take it slow  
And breathe before you get wet  
We both know  
We'll try and just regret it  
Take it slow  
This could get fast and hectic

We both know  
Just try and don't regret it  
Take it slow  
This could get fast and hectic  
We both know

We'll try and just regret it  
Take it slow  
This could get fast and hectic
