

Rock Bottom

Dune Rats

I'm down a dollar, thinkin' should I even bother today?
I met my boss and it turns out that he's half my age
Downtrodden, it's rock bottom

Your close calls, you can always change your mind
You gotta look both ways when you cross the line

My head's runnin' around and chasin'
My head's runnin' around and chasin'
Take a walk on the wild side
Take a walk on the wild side

Before you hit rock bottom life
Before you hit rock bottom life

5 PM and out the door, I'm already late (ah, f-)
I found a bus but it says seventeen minutes wait
Rock bottom, rock bottom

Everyone's got a bridge to burn
And everyone's got a lesson to learn
And no one wants it but it's your fuckin' turn
'Cause everyone's got a lesson to learn

My head's runnin' around and chasin'
My head's runnin' around and chasin'
Take a walk on the wild side
Take a walk on the wild side

Before you hit rock bottom life
Before you hit rock bottom life
'Cause all we're ever doin' is just messin' around
Before you hit rock bottom life

Before you hit rock bottom life
Before you hit rock bottom life
'Cause all we're ever doin' is just messin' around
Before we hit rock bottom life

Before you hit rock bottom life
Before you hit rock bottom life
'Cause all we're ever doin' is just messin' around
Always searchin' for somethin' that cannot be found
Your feet are in the air and your head's in the ground
Before you hit rock bottom life
