

# Back To The Future

Dune

Back to the future  
One two, is everybody ready  
Let's go deeper, deeper into sound  
To the maximum  
Let the crowd go mad  
Caution, stand clear of the speakers  
Here comes that sound  
If you want more say 'louder'  
Back to the future, back to the sky  
A new age is dawning, I'm spreading my wings, I'm ready to fly  
A new age is dawning, it's calling your name  
Get out of your darkness step into the light, a bright burning  
flame  
On the beat now  
It will be alright, it will be alright
