

## Wake Up

Dungeon

On every corner there's a preacher  
In every city there's a prayer  
And as they crucify each other  
I contemplate the open air... yeah...

Wake up  
Wake up  
Wake up  
Wake up

And every man becomes a saviour  
So in the name peace condemn  
It's funny how the big solution  
Just brings the greatest sinners in... yeah...  
Righteous to the end  
As they rape your children  
And like children we obey...

A holy war on the horizon  
Same old excuses still at hand  
They say he made us in his likeness  
I say we shaped him like a man...
